EXPRESS TURNROUND (24hrs) available : £80.00 + VAT surcharge – please TICK if required

All prices include VAT at 20.00% but exclude carriage. Please see the website for other services.

PLEASE ensure SRM power crank equipment is sent for repair in a clean state otherwise a cleaning charge of £20.00 + VAT will be made as the systems need to be clean prior to any electronics work taking place.

Please send cranks with pedal OFF but rings ON. If you require calibration please include the Left Hand crank as well.

Please send the appropriate parts to **SCIENTIFIC COACHING AND SRM-UK; Orchard Farm House, Cherry Tree Road, Tibenham, Norfolk NR16 1PQ UNITED KINGDOM** . Goods are returned via UPS or Royal Mail Special Delivery and will require a signature.

Turn round time is normally 4-6 working days. Occasionally equipment will need to be returned to SRM-Germany for complex repair situations - the cost of this will be added to your invoice but we will inform you prior to any action being taken.

**In the case of warranty issues with SRM powermeters or powercontrols not purchased directly from Scientific Coaching & SRM-UK we are more than happy to handle your case but do charge a 3rd party handling charge to cover our costs.*
